Policies offer hope for Soviet society

By STEFANY POLLAEHNE
Universe Staff Writer

Soviet General Secretary Mikhail Gorbachev's glasnost policies offer hope for a Soviet society on the brink of economic failure, BYU Russian professors said in a recent panel discussion at BYU.

Gorbachev has a lot of obstacles before him, but of all people, he is probably the best one to lead the Soviet Union. He has better prospects for success than anyone in Russia," said Gary L. Browning, BYU Russian professor.

However, skepticism continues among the Soviet people. "If the Russians have learned one thing in 70 years of Soviet rule, it's not to believe in a single new slogan, not to fall for one more trick, never get something new from a promise to be paid later," said Browning, quoting from October's *Reporter's Magazine*.

The Soviet people are so "beaten down" that even if they were democratically elected they would not know what to do with themselves, some of the professors said.

They are not used to taking responsibility for themselves, and they have forgotten how to work," said David K. Jarvis, BYU Russian professor.

Soviets set their own goals
With the introduction of perestroika, which means the restructuring of the economy and the society, 60 percent of factories now require workers to set and meet their own goals.

This is very difficult for the Russian people because they have not had any incentives for a long time, Browning said that in the United States people are born and raised to take responsibility; however, this is not natural to Russians.

Browning said the no. 2 man in the Soviet Union has been "applying pressure" to Gorbachev's reforms. "Vladimir K. Ligachev seems skeptical of the lengths to which Gorbachev has gone with glasnost," he said.

Quoting from the New York *Review of Books*, Browning said, "All eyes apparently strike Ligachev as the responsible liberalism — liberalism which is already bearing evil fruit in the reform, for example, of nationalist demonstrations and riots in the Union republics."

Freedom to speak
Invited guest Dan Chopyk, a Russian professor from the University of Utah, said glasnost means "to speak freely." In the past, the people could not speak aloud.

David K. Hart, BYU Russian professor, said during his most recent visit to the Soviet Union, in 1987, he was amazed at the openness and free discussion in the streets, in the

Correction

Because of a typographical error in a story regarding student employment, the number of students who work under contract at BYU was identified as 13,000. The number should have been 1,300. The Daily Universe regrets the error.

Lebanese release hostage

Associated Press

WASHINGTON — In confirming the release Monday of an Indian hostage to the Syrian government the State Department said it is "anxious to talk to him and learn if he has any information" about the eight other U.S. citizens held in Lebanon.

Spokeswoman Phyllis Oakley said Mithileshwar Singh, who is a permanent resident of the United States, was in Syrian hands in Beirut and would be taken to Damascus early Tuesday morning.

"We join with Mr. Singh's relatives in rejoicing in his release and call for the urgent, unconditional release of all hostages in Lebanon," Oakley

said. She added that said she did not know how he was freed or his condition.

Oakley said Syria notified the U.S. embassy in Beirut and Secretary of State George P. Shultz, who is at the United Nations in New York, of Singh's release.

"He'll be transported tomorrow to Damascus and at that point we will consult with him whether he wants to take advantage of the facilities at Wiesbaden," she said.

The United States maintains a hospital at the military base in West Germany.

The release had been expected at 2 p.m. EDT, and then at 3 p.m. After two more hours of anxious waiting, Oakley made the announcement in

the State Department newsroom at 5 p.m. "We can confirm," she said, "that the Syrian government has told us they have custody of a hostage, an Indian citizen and legal permanent resident of the United States."

She then identified the freed hostage as Singh, a visiting professor at Beirut University College. "We understood the Syrians intend to transport Mr. Singh to Damascus on Tuesday morning," Oakley said.

Asked if there were indications other hostages would be released, the spokeswoman said, "No. This is all we have."

Singh's wife, Lalmoney, is in Beirut and Singh, 60, will be turned over the U.S. ambassador to Syria,

Edward Djerejian, Oakley said. Although Singh is an Indian citizen, he was considered one of the nine Americans held hostage in Lebanon, she said, adding that he "was associated" with the Americans who taught at the college.

The release came after kidnappers holding Singh and three American teachers said they would free one captive at the west Beirut headquarters of the U.N. Relief and Works Agency for Palestinian refugees.

The announcement that a hostage would be freed from Islamic Jihad for the Liberation of Palestine came in a 36-word, handwritten statement in Arabic delivered to a western news agency in Beirut.

Shuttle makes smooth landing

NASA officials are pleased with Discovery performance

By A. CORY MALOY
Senior Reporter

EDWARDS AIR FORCE BASE, Calif. — Exactly two years, eight months, and four days after the space shuttle Challenger ended its mission in disaster, the space shuttle Discovery ended its mission Monday successfully.

Before a crowd of more than 5,000 media representatives and 400,000 spectators, Discovery made a "picture perfect" landing on Rogers lakebed at Edwards Air Force Base, after circling the earth 64 times.

NASA officials said the orbiter entered the atmosphere over the Indian Ocean just east of the southern coast of Madagascar, then glided the rest of the way to Edwards.

Discovery first flew over Edwards at an altitude of 64,000 ft., startling spectators with two sonic booms, before looping around for the final approach to the runway.

Officials were very pleased with the performance of the 193,941 pound orbiter, saying it landed a bit faster than normal.

However, a newly installed landing gear system slowed and stopped Discovery in a shorter space than in the past.

"This machine is incredible," said Mission Specialist John Lounge. "It

just hums along like a large office building. It's like a well-oiled machine."

One of the main objectives of the flight was to test improvements and modifications to the shuttle made during the 2½ year period since the Challenger disaster.

Shuttle crew members also successfully deployed a tracking data relay satellite just five hours after the successful launch of Discovery Thursday.

Astronauts also performed a variety of experiments during the four-day mission.

Discovery was launched Thursday, marking the rebirth of the American space program since the destruction of the space shuttle Challenger.

NASA officials said the solid rocket boosters worked perfectly.

The only problem with the boosters was a cover to an electrical box on the exterior of the boosters which was knocked off, but that it was minor and occurred during the impact of the booster with the ocean water.

All of the astronauts expressed their appreciation for the support that the people of the United States gave them and paid tribute to the seven astronauts killed on Challenger in January, 1986.

Gorbachev named Soviet president

Associated Press

MOSCOW — Politburo member Vitaly I. Vorotnikov was moved to the ceremonial job of president of the Russian republic Monday as the Kremlin capped the biggest leadership shake-up in Mikhail S. Gorbachev's 3 1/2 years in power.

The major beneficiary of the realignment of power was Gorbachev himself. The Communist Party's general secretary was elected Soviet president by the Supreme Soviet parliament Saturday to replace Andrei A. Gromyko, 79, who retired.

At a Monday meeting the legislature of the Russian republic elected

Interior Minister Alexander V. Vlasov, who was named a candidate member of the ruling Politburo during a Central Committee meeting Friday, the republic's new premier to replace Vorotnikov.

Vladimir P. Orlov, the 67-year-old president of the republic, retired and Vorotnikov was elected his successor.

Gorbachev, who attended the meeting of the Russian republic's parliament in the Kremlin, recommended the changes, and lauded Orlov and Vorotnikov in remarks later shown on state-run television.

Last week, Gorbachev pushed a major shake-up through the Communist Party's policy-making Central

Committee. He retired two full and two candidate Politburo members, promoted four other people and streamlined the Central Committee's apparatus.

Vlasov, 56, worked in Gorbachev's home area of southern Russia before becoming interior minister in charge of the uniformed police in 1986.

It appeared unlikely that he would continue to keep his job as the nation's

top policeman, but a replacement would have to be named by national authorities, not the republican parliament.

Vorotnikov's replacement as the Russian premier had been rumored in Moscow and there have been persistent reports that the 62-year-old leader was ill.

The official Tass news agency gave no reason for the charges.

Stronger ties encouraged by Homecoming activities

By STEFANY POLLAEHNE
Universe Staff Writer

In an effort to create closer ties between the university, students and alumni, Homecoming events this year will focus on promoting individual colleges and increasing student participation, said Heidi Nemelka, BYUSA vice-president.

"Come Home to the Spirit of the Y," is this year's Homecoming theme, in connection with BYUSA's theme for the year, "The Spirit of the Y."

Nemelka said some new events this year include a campus-wide service project Wednesday from 6 p.m. to 8 p.m., a mountain bike race and BYUSA Sports Olympics Thursday; the passport competition and the Ram Rampage competition throughout the week.

Events involving alumni and students include the Honored Alumni Lecture Series on Thursday at 11 a.m. and Career Connections from 8 a.m. to noon on Friday.

Each college will have a display in the ELWC Garden Court all week long.

Joe J. Christensen, president of Ricks College, Alan C. Ashton, founder of WordPerfect and Vern May, director of Dow Chemical's Western Applied Science and Technology Laboratories, are some of the honored alumni addressing students Thursday.

During the week, all registered campus clubs, colleges and student wards are eligible to earn points for competing in each Homecoming activity.

The points will then be entered in the teams' passports, which can be

picked up in the Stepdown Lounge, with a validation stamp.

Starting today, The Daily Universe will publishing four clues describing the location of a set of ram horns on campus for the Ram Rampage contest. The horns will be burned at Friday's 9 p.m. bonfire and dance.

At the beginning of today's "lighting of the Y" and "Almost Anything Goes" competition, teams will take an Olympic oath and Cosmo will pass a lit torch to team leaders before the actual lighting of the Y.

NEWS DIGEST

Compiled from staff and news service reports

Supreme Court prepares for new term

WASHINGTON — The Supreme Court, beginning a new term Monday, set the stage for an important church-state ruling in a Pittsburgh dispute over religious displays and expanded its study of drug testing in the workplace.

The justices issued orders in some 1,000 cases as they returned to the bench after a three-month summer recess.

They agreed to grant full review in 20 of them.

Most significantly, the court said it will decide whether displays of a Christmas nativity scene and a menorah, symbolizing the Jewish holiday of Hanukkah, should be allowed at two government buildings in Pittsburgh.

Although such disputes are not new to the court, the case offers Justice Anthony M. Kennedy his first opportunity to consider how high a wall the Constitution requires between government and religion.

Many experts believe the court may be poised to make dramatic changes in the constitutional tests applied in certain freedom-of-religion cases.

The court Monday also agreed to consider, for the second time in two years, the authority of states to deny unemployment benefits to people who refuse to work on their Sabbath.

Despite his 12 years as a federal appeals court judge before becoming a justice last February, Kennedy's views on the politically volatile issue of religious freedom largely are unknown.

Poll indicates skepticism of government

NEW YORK — Americans believe bribe-taking is rampant in the federal government, a Media General-Associated Press poll has found.

The national survey of 1,125 adults found deep skepticism of government integrity. In the most critical finding, an overwhelming 70 percent said they thought taking illegal payoffs for special favors was widespread.

Fully half the respondents called the government dishonest overall and seven in 10 called it poorly managed.

Even more, 82 percent, said they were not surprised to learn of recent corruption charges involving the Pentagon.

On specific cases, a plurality said former Attorney General Edwin Meese III should have been charged with crimes, and half opposed the suggestion of a presidential pardon for former national security adviser John Poindexter, the highest official charged in the Iran-Contra case.

Respondents were evenly split on a pardon for Poindexter's assistant, former Marine Lt. Col. Oliver North.

Hospitals in declining financial health

CHICAGO — The financial health of the nation's hospitals is taking a turn for the worse, which could lead to more hospital closings and a decline in the quality of patient care, an industry group said Monday.

The main cause of the hospitals' financial woes is less-than-adequate payments under government Medicare and Medicaid programs, said the Healthcare Financial Management Association, citing a survey of 1,400 hospitals. There are about 7,000 hospitals in the country.

"The first thing we need is to have a payment policy for Medicaid and Medicare services that is rational," said association President Richard L. Clarke. "We feel that it is currently unfair to hospitals."

"We believe government and employers must ... make decisions for payment of health care services which meet the financial needs of hospitals that conscientiously manage their costs," he said.

Under changes that took effect in October 1983, Medicare pays a set amount for a given service or treatment. The schedule was set by Congress in an effort to curb sharply escalating healthcare costs and reduce federal budget deficits.

Navajo men sentenced to life in prison

SALT LAKE CITY — A federal judge Monday sentenced two Navajo tribal members to life in prison for the shooting and burning deaths of two tribal police officers who had tried to break up a party.

Thomas Cly, 22, and Vinton Bedoni, 31, were sentenced by U.S. District Judge J. Thomas Greene. They were found guilty by a jury Aug. 2 of two counts of first-degree murder, aiding and abetting and use of a firearm in a crime.

"There's no question this is a crime of first-degree murder in its most brutal form," Greene said in sentencing Cly.

The judge also sentenced both men to a pair of five-year terms for aiding and abetting and use of a firearm. Those terms are to be served consecutively after the concurrent life terms, Greene said. Cly declined to make a statement, but Bedoni told the judge, "I just want a new trial. They're wrong."

Defense attorneys had asked the judge for concurrent prison terms, just as prosecutors had asked for consecutive life sentences.

Judge says no release for Vickie Singer

SALT LAKE CITY — A federal judge has refused to release polygamist matriarch Vickie Singer from prison pending appeal of her 5-year sentence on charges stemming from the Jan. 16 bombing of a Church of Jesus Christ of Latter-day Saint chapel and a subsequent standoff with police.

U.S. District Chief Judge Bruce Jenkins ruled Monday that Mrs. Singer, 46, must remain behind bars while she fights her May 9 conviction on charges of possessing a bomb, resisting arrest, and possessing weapons.

During the same May federal trial, Mrs. Singer's son, John Timothy Singer, her son-in-law, Addam Swapp, and his brother, Jonathan Swapp, were convicted on attempted murder and bomb- and firearms-related charges.

Addam Swapp was sentenced to 15 years in prison, while John Timothy Singer and Jonathan Swapp got 10-year terms from Jenkins.

The men also face state second-degree murder charges in the shooting death of Corrections Lt. Fred House, slain Jan. 28 in the shootout that ended the 13-day police siege that followed the bombing of the church. Addam Swapp was wounded in the same exchange of gunfire.

WEATHER

Qiu Xuankai, head of the delegation from the Chinese steel industry, meets with BYU representative, Karl N. Snow, at BYU Friday for a dinner hosted by Geneva Steel.

Chinese negotiate with Geneva

Foreign steel industry assembles with U.S. steel counterparts

By HISAYOSHI IWAMITSU
Senior Reporter

The first official delegation from the Chinese steel industry seeks joint ventures with U.S. steel industries. Geneva Steel in Orem will be one of them, a Geneva Steel official says.

According to Barry Bartlett, administrative assistant at the Orem steel mill, there is a great deal of discussion going on regarding establishing "an on-going relationship and the way we facilitate helping Chinese steel industries through Geneva Steel in the future."

Bartlett said, "We are also discussing possible acquisitions of some acids that have not been used in steel plants before."

The negotiation with Chinese steel

industries is "coming along very nicely. An excellent relationship has been established," he said.

The Chinese delegation, consisting of five officials of the Iron and Steel Department of the Metallurgy Ministry and 37 executive managers of the major iron and steel producing companies in China, arrived in Salt Lake City Friday morning and had lunch with Utah Gov. Norm Bangerter.

That afternoon, the delegation visited BYU and enjoyed a BYU football game against Utah State University.

Qiu Xuankai, head of the delegation and deputy director of the Iron and Steel Department of the Metallurgy Ministry, said through an interpreter, "The purpose of this study tour is to see American management

technique and steel production technology. We also want to hold commercial negotiations with U.S. steel companies."

He said an agreement is important to the reconstruction of China.

According to Xuankai, the delegation will be leaving Utah Oct. 8. They plan to visit General Motors and Ford Motors in Cleveland, Bethlehem Steel in Chicago, Lone Star Steel in Lone Star, Texas and California Steel in Fontana, Calif.

Dukakis praises crew on Shuttle mission

Associated Press

Presidential candidate Michael Dukakis hailed the success of the Discovery space shuttle mission on Monday, while his top campaign aides discussed how to salvage a second debate after the League of Women Voters abruptly withdrew as sponsor.

"America is back in space," Democrat Dukakis told a rally in Hartford, Conn. "We are proud and we are thrilled at its achievements and the courage of that crew."

"We are committed to the debate," said Dukakis. "And I'm sure we can go forward, if necessary, with other sponsors."

Bush and Dukakis debated Sept. 25 in Winston-Salem, N.C., a confrontation after which both sides said they

were pleased with the outcome and neutral observers found no clear winner. The vice presidential candidates

— Republican Dan Quayle and Democrat Lloyd Bentsen — were off the campaign trail, preparing for their debate Wednesday night in Omaha, Neb.

Bentsen was doing his preparation in an Austin, Texas, hotel and during a brief break he told reporters, "I think we're relaxed for it; I think we're ready for it. ... I'm not nervous."

The first presidential debate was sponsored by the Commission on Presidential Debates.

The Commission is a body co-chaired by Paul G. Kirk Jr. and Frank J. Fahrenkopf, the chairmen of the Democratic and Republican parties, respectively.

Space shuttle crew welcomed home by vice president Bush

By ADILSON PARRELLA
Senior Reporter

EDWARDS AIR FORCE BASE, Calif. — What was remembered in sadness is now re-lived in triumph said Vice President George Bush welcoming the space shuttle Discovery crew members at a reception Monday at 2:14 p.m.

"And I can't help but think that just as you had millions cheering for you from below, you had seven departed friends, who will never be forgotten cheering for you from above," said George Bush.

Bush welcomed the five astronauts of the Discovery crew, in front of the Ames Research Center of the National Aeronautics and Space Administration at Edwards Air Force Base.

Anyone who watches sports has seen athletes — they give each other the high five to mark a successful play, well you all are America high five, to mark a spectacular event, and because of you, our space program is back in the game," said Bush. "And we are proud to welcome the space shuttle Discovery back to earth, back to America, and back to the future."

Independent Study: For those who can't fit a class they really need into their schedule.

If your schedule for Fall Semester is not working out because you can't get the class you need, take a course through Independent Study.

Independent Study courses are an excellent way to supplement your on-campus schedule:

- They are designed to be equivalent to on-campus classes.
- They are taught by BYU professors.
- They give you the same credit.
- They give you added flexibility.
- You can enroll any time.
- You have a full year to complete each course.

Most BYU departments are represented through Independent Study. You have nearly 300 different courses to choose from.

Pick up a free Independent Study catalog today from your College Advisement Center, the information desks at the Wilkinson Center or ASB, or at the Harman Continuing Education Building. Or call us at 378-4044. We'll be happy to answer your questions.

An excellent academic experience wherever you are—whenever you need it.

Patrons vandalizing library material

WAYNE PETERSEN
Staff Writer

Some art, film and photography books of value are being mutilated by patrons of the Harold B. Lee Library, according to a library spokesman.

Andy Silverman, preservation librarian, said mostly pictures are torn out of expensive, high-gloss books and magazines.

Library vandalism is a national issue and a growing problem to many universities.

Harry Ostler, assistant university librarian for personal and general services, said, "millions of dollars are lost annually to damaged materials in libraries across the nation."

According to Tom Wells, reserve librarian, an estimated \$3,900 in damages of approximately 204 magazines ranging from scientific journals to popular magazines have been damaged and torn between Jan. 1988 to July in the reserve library alone.

"We know there is a lot of damage being done, but the reserve library is just one area of the library we are aware of," said Ostler.

Each of the material subject to vandalism is in the value range of \$75 and is kept in locked cases in the library. According to Silverman, most people do not understand the locked case policy. "The locked case is not to deter use. We think of it as a suppression of their right to have access to material, but in fact, it is in attempt to protect the material."

LDS cellist has learned to sacrifice

award-winning musician discusses her beliefs and lifestyle

DENISE LAPERLE
Staff Writer

She carries a four-and-a-half-foot cello in black, sports a resume that includes a tour of Japan and a White House appearance at the first request, wears oriental earrings and an uptown Manhattan dress with California ease, and presents herself with the gracious composure of a professional.

Alison Eldridge, an 18-year-old cello player who is also a member of the Church of Jesus Christ of Latter-day Saints.

Eldridge performed at BYU Sept. 1987 as part of her concert tour and at the Julliard School of Music when she is not on tour.

Eldridge began her musical career on piano at the age of three under the direction of her mother, pianist Akimoto. When nine-years-old, Eldridge switched to cello.

In six months she had won her first competition against students who had studied cello for years.

Since then, Eldridge has won first place in competitions including the Kaper Awards Competition at the Julliard Pre-College Cello Competition, the American String Teachers Association and the Los Angeles Philharmonic Student Stars Competition.

She has performed with the New York and Los Angeles Philharmonics.

BYU aerobics classes gaining popularity; local health clubs experiencing same trend

CYNTHIA WICKS
Staff Writer

Aerobics are gaining popularity at BYU and in the Provo area.

Enrollment in aerobic classes at BYU is up compared to past years, said Claudia Hill, BYU coordinator of aerobic dance.

"We teach around 12 classes a day with about 30 students in each one," she said. "That gives us about 1,000 students this semester."

Local health club in Orem is also experiencing a rise in enrollment. Classes range between 10 and 30 people," said Rick Nelson, an employee. "The 6:30 p.m. class is usually the fullest."

According to Hill, aerobic dance is the best way to combine fun and exercise while not taking a lot of time.

Hill said she feels students enroll in aerobic classes for three reasons. They want to fill a general education requirement, improve their fitness and have fun."

The spokesman for another health club said the aerobic classes are more popular among women because they

and competition in stadium

DENISE LAPERLE

Staff Writer

BYU's Cougar Marching Band will have more than 2,000 high school band members today at the 11th annual Rocky Mountain Band Competition in Cougar Stadium.

Seventeen schools in the Intermountain West will participate in the competition.

The competition gives bands an opportunity to showcase their bands and be judged against the national linear scale," said Donald Peterson, director of the Cougar Band.

"In this way, they can not only see how they compare among the bands coming to Provo, but also get an idea of how they would rate nationally," he said.

Outstanding drum majors, color guards and percussion sections will be presented awards aside from the bands themselves.

Audiences will hear classic Americana, with music including "America the Beautiful."

Although Eldridge has been performing with orchestras throughout the United States and now Japan for some time, she said her career is only beginning.

"Since I was young I've been preparing, practicing for a career. My career is just starting."

"I would like to continue to have a strong concert career, as a soloist."

Eldridge said a cello career is very difficult, especially for a woman like herself who hopes for marriage sometime in the future.

"I don't know what I'm going to do really, as far as marriage," she said.

"I would like to get married, but I want to establish a career first. It will take at least another five or 10 years."

In the springtime Eldridge will be going to London to make her first recording, and until then will continue her recital tours and her studies at Julliard.

"Right now it's fun, I only do about 25 concerts (a year), so it's not too bad. For now, it's fun."

If she weren't playing cello now, Eldridge said she would like to be a veterinarian, and added that there is one thing that she can't have with her cello career that she wishes she could.

"One thing I feel I will miss out on is a real university experience," as Julliard offers only music and music theory courses. "Other than that, I'm doing what I want to do."

and has given recitals at the Kennedy Center and Los Angeles' Royce Hall.

Her journey to this point in her career has not been without sacrifice. Her social life has been part of that sacrifice, attendance at LDS youth activities specifically coming second to homework and practice schedules.

"That was a difficult challenge. I wanted to go out with my friends," but the need to practice demanded most of her spare time.

"I practice four to six hours (a day) when I'm not on tour, and about two hours when I'm on tour."

When she was younger she would try anything to get out of practice, but she doesn't try so hard anymore.

"The knowledge of a concert coming up can be incentive enough," she said, but while on tour she also finds inspiration to practice from just walking around the cities.

Her on-hold social life at home does not mean she does not meet people. "I meet lots of people on tour," a diverse group of characters from fellow performing artists to reporters, she said.

Eldridge has made performances this season in Japan and in areas of the United States including her Sept. 29 performance at BYU.

"I've been wanting to play at BYU for quite a while," to see friends from both her parents' New Canaan, Conn., home and from their former home near Laguna Hills, Calif., she said.

comparing you to the other people in the class."

Shin splints, fallen arches and joint trauma are the most common injuries among aerobic students, said Hill. "We don't have very many serious injuries and if students warm up properly and follow proper technique injuries are cut to a minimum."

She said there are five points she would stress to a person when exercising: always warm up to begin a workout, cool down to end a workout, be cautious when choosing a surface to work out on, wear a good support shoe and be careful not to injure one body part while strengthening another.

Hill said she would like to educate men on the advantages of aerobics and to emphasize that it is not a sport just for women.

"The most men we have had in a class has been 10 out of 30 students," she said.

According to Jessica Uffenorde, 17, a freshman from Washington, majoring in psychology, aerobics is "totally fun. I like it because there is no competition. No one is looking at you and

only take one hour and provide a solid workout."

Nelson said he thinks enrollment in aerobics is up because Americans are more aware of how they look today. "People across the country are very health conscious and want to be skinny," he said.

Hill, who has taught aerobic classes for six years, said people like aerobic dance because it is fun to move to music, especially in a group.

Aerobics also helps develop cardiovascular endurance, flexibility and strength. In the BYU classes, a student can also gain knowledge about their body fat and ways to decrease it.

According to Jessica Uffenorde, 17, a freshman from Washington, majoring in psychology, aerobics is "totally fun. I like it because there is no competition. No one is looking at you and

only take one hour and provide a solid workout."

Nelson said he thinks enrollment in aerobics is up because Americans are more aware of how they look today. "People across the country are very health conscious and want to be skinny," he said.

Hill, who has taught aerobic classes for six years, said people like aerobic dance because it is fun to move to music, especially in a group.

Aerobics also helps develop cardiovascular endurance, flexibility and strength. In the BYU classes, a student can also gain knowledge about their body fat and ways to decrease it.

Hill said she would like to educate men on the advantages of aerobics and to emphasize that it is not a sport just for women.

"The most men we have had in a class has been 10 out of 30 students," she said.

U.S. ambassador predicts a victory for Bush candidacy

By ELIZA TANNER
Universe Staff Writer

The U.S. ambassador to Sweden predicted a presidential election victory for George Bush in a panel discussion last Friday at the David M. Kennedy Center for International Studies.

With 70 months of economic expansion, low civil unrest and no overriding personality issues, November will see a low voter turnout, said Ambassador Gregory J. Newell.

Those who actually vote will be more responsible and rational and will look at Bush's extensive experience in national and international affairs, he said.

People in Europe, especially Sweden, are hoping for a Dukakis victory, said Newell. However, they "are practical and accept Bush because his policies represent continuity" with the Reagan years.

"There is more discussion of the U.S. elections than of their own because when things are going relatively well, a population does not really care what is happening at home," said Newell.

Newell was appointed ambassador to Sweden in 1985 after previously serving under President Reagan as the youngest Assistant Secretary of State in U.S. history.

Twenty-one years after starting undergraduate work at BYU, Newell will finish his last test this Friday.

The panel also included Stan A. Taylor, director of the Kennedy Center, and political science professor David B. Magleby and was sponsored by the Kennedy Center and Pi Sigma Alpha, the political science departmental club.

The 1988 presidential campaign is run like an incumbent election, said Taylor in an overview of the major campaign issues.

As Bush is running on President Reagan's record, Michael Dukakis "has to make a challenger's fight," he said.

Magleby commented extensively on the recent debate between Bush and Dukakis, calling it "canned, packaged, prepared" and cited "pluses and minuses" for both candidates. "In the long term, it may be the first time ever the vice presidential debate may be more important than the presidential debate," said Magleby.

Nursing club offers Homecoming service

Universe photo by Trent Martin

By STEPHEN K. CHRISTIANSEN
Universe Staff Writer

The BYU Student Nursing Association offered free testing for hypertension, diabetes and anemia as part of the BYU Homecoming activities Monday.

The free screening benefitted the student nurses as well as the students, according to the association president.

Russell L. Skinner, 25, a senior from Montpelier, Idaho, majoring in nursing, said, "We wanted to do a service project for Homecoming as one of the clubs on campus. It gives our students experience in doing these certain tests and also provides a valuable service to the students."

Marilyn Hammond, BYU student adviser for the association, said the response was better than anticipated.

"We're excited," Hammond said. "We really didn't know how many to plan for. When we were getting our supplies, I'm afraid we planned low."

Student awareness varied from curious to well-informed, Hammond said.

Many students checked in who had been tested as anemic before and

wanted to check if the problem persisted, she said.

Such was the case with Lisa Malone, 18, a freshman from West Bloomfield, Mich., majoring in communications.

"I'm anemic (and I'm) taking medicine for it now," Malone said. "But I hadn't taken it for awhile. I decided to see if it was doing any good."

Malone tested positive for anemia and underwent the other two tests just to be sure.

Those who tested positive were referred to a physician or to the McDonald Health Center, Skinner said.

The BYU Student Nursing Association is a charter member of the National and Utah associations. The organization provides workshops, leadership training and practical experience. The group tentatively plans to provide the screenings on an annual basis, Skinner said.

The screening booth was one of several in the ELWC Stepdown Lounge that provided services and information on the opening day of the Homecoming Week festivities. Students and faculty participated throughout the day.

Homecoming events begin

By ALISA Y. KIM
Universe Staff Writer

Speaking at the opening ceremonies of Homecoming Week, President Jeffrey R. Holland said that two things Homecoming means to him are tradition and joy.

"It is important to do some things ceremonially," he said. Homecoming is one event where "we remember and make contact and links to the past."

On a more personal and less traditional note, he said that although there are things such as childhood or the dead that can never come back again; joy, history, tradition and people can return again through Homecoming activities.

Located near the Wilkinson Center and the Harris Fine Arts Center, an audience of approximately 50 administrators, students and BYUSA officers listened to the Homecoming opening ceremony.

President Holland said Homecoming activities "build and move to a crescendo at the end of the week."

Additional BYUSA speakers and a musical number revolved around the theme of Homecoming, "Come Home to the Spirit of the Y."

The theme speaker, BYUSA Executive Vice President Jeff Singer, said Homecoming will help students develop in the areas of intellectual, spiritual, physical and social growth as they participate in dances, service projects and team competitions and lectures.

BYUSA President Mark Crockett gave closing comments and said Homecoming is a time for us to come together to celebrate the success of the past and to dedicate ourselves to the dreams of the future.

The Homecoming Passport, available at the ELWC Stepdown Lounge, is one effort made by BYUSA to get student involvement, Crockett said.

The passport lists several different activities. For each activity participated in the passport will be stamps and the accumulation of stamps can be redeemed for prizes, coupons, free dance tickets or BYU Department Music Ensemble tickets.

Homecoming activities will continue from Oct. 4 through Oct. 11. The final event will be a devotional at the Marriott Center at 11 a.m.

President Gordon B. Hinckley, First Counselor in the First Presidency of The Church of Jesus Christ of Latter-day Saints, will speak.

Students unsure of tenant rights

By ALISA Y. KIM
Universe Staff Writer

Single BYU students not living with relatives who are required to live in BYU-approved housing facilities do not know of their rights or responsibilities as tenants living off-campus, according to John Pace, manager of the BYU Off-Campus Housing Office.

"They feel an injustice and come in to find out."

"Almost all of them don't really know their rights when they contact us," he said.

Tenant rights

These students are required to live in university-approved housing because the guidelines cultivate a living environment promoting moral and spiritual growth and academic performance, according to Pace.

A few of their basic tenant rights include living in rental units with specific furnishings, such as separate, sanitary mattresses, a desk and bookshelves, adequate light and ventilation, bathroom facilities in good working condition and safety and security standards, such as a smoke alarm and locks on windows and doors, according to a BYU Off-Campus Housing pamphlet.

Basic Tenant Responsibilities

Basic tenant responsibilities include maintaining the interior property and not setting up sleeping facilities in living-room areas.

However, it is the responsibility of

the landlord to repair the exterior and interior of the unit and to remove snow and ice from stairways, walkways and parking lots.

Lack of renting experience and knowledge of meticulous points of law and the failure to read the contract or understand what is read are the main reasons of this unawareness, said Pace.

Unlike other states, Utah does not have landlord-tenant codes, so parties depend on statutes, common law and case laws which the legislature has passed.

Most are not aware how it affects them.

For example, some students do not realize that the landlord is required to return their security deposit within 30 days of termination of tenancy.

Arbitration waiver

A recent problem reveals that others do not contemplate their contract, sign an arbitration waiver, give up their right to use the BYU Housing Arbitration Board and end up defending themselves in civil courts.

"Lots of students and landlords don't know what the arbitration clause is," Pace said.

"I think it would be wise for a student to not sign the waiver and keep the arbitration clause in effect," he said.

The clause, effective since the 1987-88 school year, requires the landlord and tenant to settle disputes themselves through self-determination or with a mediator before presenting the

problem to BYU's private, third-member arbitration panel.

The waiver was added so landlords have the choice to turn to the public judicial system instead.

Other problems

Other frequent problems include breach of contract, complaints on condition of the apartment or interpretation of the contract, said Pace.

Most cases are simple, he said. Yet depending on the severity of the dispute and attitudes of the parties, cases have been solved within one day to one year.

Each year, approximately 90 percent of living units are successfully inspected at least once.

If minimum requirements are violated or if a pattern or practice of landlord is deceitful or less than honest with students, the Off-Campus Housing Office has cause to take away the approval, according to Pace.

**Think
Big
Think
Future
Think
Varian**

With Fortune 500 status, worldwide operations, and 12,000 employees, Varian Associates is considered to be "mid-sized." And that's fine. We prefer to think big in terms of achievement. In communications, medicine, defense, science and semiconductors, our performance rivals that of firms far larger. For example, we've won Research & Development Magazine's I-R 100 Award for product innovation 72 times.

Winning awards confirms what we already know. Our innovative professionals are making technology work—in cancer therapy equipment, advanced gallium arsenide devices, computer control strategies for high power satellite ground stations, and other meaningful applications. Market-driven, we're always thinking about tomorrow's possibilities. And, with group environments sized for action, we excel at turning possibilities into realities.

There's much more to tell about the involvement, visibility and diverse opportunities that Varian offers business and engineering graduates. And we'd like to tell you in person about those opportunities in areas such as manufacturing, quality assurance and test.

So if you have big plans for your future, think Varian. Varian's Campus Manager will discuss professional opportunities at our presentation on:

**Tuesday, October 18, 1988
at 5:00 p.m.
at the Wilkinson Center**

All are welcome! On-campus interviews will be held on **Wednesday, October 19.**

Contact your campus Career Services office at the Placement Planning and Career Center for more information about Varian or forward your resume to Varian Corporate College Relations, 611 Hansen Way, F-130/ NP, Palo Alto, CA 94303. We are an equal opportunity employer.

atings target poor attitudes

D. TODD MAURER
Universe Sports Writer

The BYU intramurals program is under way this year and headed for another successful season. "Things are going very well so far this year for the intramurals program," said Intramural Director Lee Gibbons. "We are really pleased this year," Gibbons said. He said some changes have been made recently and things are running very smoothly. The changes include a rating system used to determine the sportsmanship of the teams involved in the program. "The biggest problem (in the past) has been sportsmanship," Gibbons said. "The last few years we've tightened up ... and the teams are responding." The rating system was adopted about two years ago according to Gibbons. He said that this year they have made it a little tougher. The teams are rated each game by officials and a supervisor, Gibbons said. The rating is based on a one to five scale, five being the best. "If a team has not averaged at least a 4.0 at the end of the season, it will not be allowed to play in the tournament," he said. Intramurals at BYU have been going on since the late 1920s, Gibbons

said. He said he feels that students need an outlet and the intramural program provides that for them.

There are about 60 different activities in the program that students can participate in over a 12-month period.

Gibbons said it is hard to tell how many students benefit from the program because many of them play more than one sport. He said right now there are over 5,000 people enrolled in the football program alone.

Fees are required to participate in some sports. Gibbons said the money is used to pay for experienced officials for those activities. He said about half of the officials come from student employment and the other half are returning officials from the previous year.

The Intramurals Office has six graduate students who help with the sports program, each is assigned specific activities to run. This year Dave Green, Julie Hanson, Sam Atoa, Jake Davis, Morgan Woodhouse and Brad Probst are running the program.

Although several sports have already begun, entries are still open for indoor soccer, badminton, table tennis doubles and one on one.

All full-time students, faculty and staff are eligible to participate in the program. Information about eligibility and activities is available at the Intramurals Office in 112 RB.

Universe Sports Writer

The BYU Women's volleyball team fought a tough battle Monday, but were unable to come away with the win. The final score of the match was 11-15, 15-12, 8-15, 8-15 bringing the Cougars record to 15-3.

The Cougars got off to a slow start, down 6-0 early in the first game. Unable to pull off the win, the Cougar spikers put the loss behind them and went full force into the second game.

But even with the second game win the Cougars could not get into a winning groove and lost the next two games.

"We weren't into the game mentally, our feet were flat and we could not execute," said Coach Elaine Michaelis.

According to Michaelis they pulled every switch and tried all new combinations, none of which seemed to help.

"This doesn't do anything if the players are not in the game," she said.

The Sun Devils out-hit BYU with a percentage of .305 to BYU's .194. All-

American Christy Nore, of ASU, came ready and had 23 kills, with a hitting percentage of .362.

"We knew what we had to do to stop her," said Michaelis, "but we could not execute the blocks."

The blocking schemes are left up to Assistant Coach Craig Choate, a graduate of BYU and former member of the BYU men's volleyball team.

"Christy is having a great year," said Michaelis.

Compounding the problem for the Cougars were eight net violations and the strong serving from ASU that kept the BYU offense from getting set.

"When we're off balance and we're late getting places we have violations. It demonstrated the mood we were playing in," said Michaelis.

Cougar All-American Dylann Duncan had 23 kills and a hitting percentage of .271, the team leader.

All-American Jill Plumb was in second with 12 kills and lead the defense with 14 digs.

ASU made a lot of noise, which filled the gymnasium and seemed to give the Sun Devils an edge over the

Cougar spikers. "Every team has its peaks and valleys, and this is just one of the valleys," said Michaelis. The Sun Devils lost to the University of Oregon, who the Cougars beat on their road trip to Hawaii, last weekend and were ranked 20th in the NCAA poll as of Sept. 27.

This match was the Cougars first regional loss, and they have yet to play a High Country Athletic Conference match. Michaelis anticipates a tough workout in practice today. "There is nothing like a hard work-out and getting tired, you start to think again."

The Cougars travel to Calgary, Alberta to play the Calgary Dinosaurs in the season opener exhibition match Wednesday.

The results and statistics will not count on BYU's permanent record because the match is against an international opponent.

The Dinosaurs finished up the season last year with a record of 22-14 and were ranked fourth in Canada. Playing for Calgary will be junior Christina Nezie who spent the last two years with the Canadian National

Saints kick Cowboys 20-17

By DAVID W. HARRIS
Universe Staff Writer

The NFL's most accurate kicker, Morten Anderson, kicked a 49-yard field goal with two seconds remaining in the game, to lift the New Orleans Saints over the Dallas Cowboys 20-17 Monday night in New Orleans.

The game-winning kick came just 22 seconds after Dallas kicker Roger Ruzek tied the game with a 39-yard field goal of his own.

The Saints took the opening possession for a touchdown using short passes to beat the Dallas defense. Lonzell Hill completed the drive, catching a scoring toss from quarterback Bobby Hebert.

Later in the first quarter, a New Orleans punt hit a Dallas defender in the back and the Saints recovered on the Dallas six-yard-line. However, the Saints could not convert as Everson Walls intercepted a tipped pass on the nine-yard-line.

The Saints then recovered a Herschel Walker fumble and later scored on a touchdown pass from Hebert to rookie Brett Perriman. Hebert finished the evening 17 of 37 for 273 yards and two touchdowns.

Dallas struck back later in the second quarter with a 13-yard pass from Steve Pelluer to Kelvin Martin. Pelluer would later hit Martin for another scoring pass in the third quarter.

Anderson hit a 27-yard field goal in the third quarter to give New Orleans a 17-14 lead.

Dallas came back to put together a long drive only to have a 39-yard field goal attempt by Ruzek hit the upright and fall back into the end zone. Later Ruzek hit the game-tying field goal from the same distance.

The dramatic field goal overshadowed a remarkable performance by Pelluer. Playing perhaps his best game in his five-year NFL career, Pelluer made several key completions

and ran for three important first downs. However, it was not enough. Walker led all rushers with 122 yards.

New Orleans carried the momentum throughout most of the first half, keeping the ball over 19 minutes. However, the Dallas defense stiffened and took control in the second half. But Hebert was able to hit the passes when they counted and maneuvered the Saints into position to kick the game-winning field goal.

Two key players—Eugene Lockhart, and Joe Kohlbrand—were ejected following a first quarter fight. Lockhart is Dallas' starting middle linebacker, and Kohlbrand is an important backup linebacker for the Saints.

The win improves New Orleans' record to 4-1, while Dallas drops to 2-3.

Next week New Orleans faces San Diego and Dallas goes up against last year's Super Bowl champions, the Washington Redskins.

Ruggers drop first two games

By VICKI WILSON
Universe Sports Writer

The BYU rugby team recorded losses in its first two games of the season. The first loss came against Park City, 10-12, and the second loss was against Heggis of Salt Lake, 12-30.

The Cougars played against Park City on Saturday, Sept. 24 and played against Heggis on Saturday, Oct. 1. Park City went out in the first half and took the lead 12-0. BYU committed a lot of penalties which gave its opponent the opportunity to score.

The Cougar defense put pressure on Park City and caused them to make a bad pass. Nathan Baddel, a junior from Delaware, tackled the scrumhalf on the two-yard line, recovered the ball and dove across the end line for a score of six points.

Jean Roush, a junior from Longgrove, Iowa, received a high kick and raced 45 yards scoring four points. The Cougars had a chance to tie the game but mishandled their play and

went wide right to end the game, 10-12. BYU Rugby Coach David Caldwell said, "I was very pleased that we were able to keep up our intensity and come back, we didn't give up. I think we did well considering it was our first game and the new kids playing this year."

The Cougar's inexperience, according to Caldwell, showed against Heggis. Late in the second half the Cougars put in 12 points but still lost.

Team. The Dinosaurs also have a junior, two-time National Junior Team member and an All-Canada West Conference player.

The Cougars also play their first two conference matches this week, when they return from Canada.

The first match is hosted by Utah State University and will be played in Logan, Ut. Thursday at 7 p.m.

The second match is played in Provo, where BYU will host the University of Utah Friday in the George Albert Smith Fieldhouse.

AT-A-GLANCE

Submissions for *At-A-Glance* must be received by noon on Monday for Tuesday's paper and by noon on Wednesday for Thursday's paper. Submissions must be resubmitted each week for continuing activities.

Items must be double-spaced, typed on 8-1/2-by-11 sheet of paper and should not exceed 25 words. Submissions of a commercial nature, or which advertise activities resulting in remuneration to anyone, will not be accepted for publication.

At-A-Glance will run twice a week on Tuesdays and Thursdays. No submissions accepted on Wednesdays.

Latin American Students Association — Join our weekly dances at Plastikue every Friday from 9 p.m. to 1 a.m. Enjoy the Latin rhythms. We'll see you there.

Need Men — Be a role model to a child in need. We desperately need you and so do our community. Visit the BYUSA-ACCESS program on the fourth floor of the ELWC.

Volunteer — And volunteer an hour of your time to help an elderly person. Individuals and groups are needed to entertain at nursing homes. For information and service ideas contact Martha at 373-7369, Lisa at 373-1518 or Karen at 373-1700.

Volunteers Needed — To teach simple skills to handicapped on Saturday mornings from 9 to 11:30 a.m. Anyone can do it! Worthwhile opportunity. Call Martha at 373-7275 or Lisa at 373-7676. Sponsored by BYUSA.

Writing Workshop — Learn effective writing strategies today at 2 p.m. Sponsored by the Counseling and Development Center, 151 SWKT.

Orientation Workshop — Learn to overcome putting things off until it's too late. Tuesday at 10 a.m. Sponsored by the Counseling and Development Center, 151 SWKT.

Developing Self-Esteem Workshop — Learn to develop a stronger self-esteem. Come to the workshop at 12 p.m., Wednesday. Sponsored by the Counseling and Development Center, 151 SWKT.

Honors — After-performance lecture for "Wilderness" Thursday in the Pardo Theater. International Cinema lecture on *Shinran* Wednesday at 3:15 p.m. Honors Forum — Moody on AIDS — today at 11 a.m. in 321.

League of Women Voters — Will be registering at the University Mall on Friday and Saturday in the J.C. Penney Court. The hours are 12 p.m. to 9 p.m. on Friday and 1 p.m. to 7 p.m. on Saturday. They will be having a luncheon Oct. 25 at 12 p.m. The topic of discussion will be the Utah Economic/Education Conference. Join them at the Brick Oven restaurant, 1800 N., Provo.

Cholesterol Screening — In the Garden of the ELWC, today through Friday. **Washington Seminar** — There's still time to register for Winter Semester '89. Come to 747.

Events for Human Rights — Meet every Wednesday at 4 p.m. in 2150 JKHB. For more information call Allen at 373-7919.

Do You Have Legal Career Interests? — All students who are interested in a career as a lawyer in the U.S. Army Judge Advocate General's Corps (active army or U.S. army reserve) are invited to meet with a representative of the program Oct. 14 between 11:45 a.m. and 12:45 p.m. in 220 ROTC.

Utah County charities receive donations from local store

By LONA J. WOODWARD
Universe Staff Writer

Utah County charities received more than \$29,000 worth of clothing, food and various domestic items Friday as a result of a donation made by a local store.

Charities receiving donations included the Provo Community Relief Fund, Spanish Fork's Deseret Relief, the Salt Lake Rescue Mission, St. Vincent De Paul Center and the Division of Family Services in Salt Lake City.

Provo Mayor Joseph A. Jenkins met with local charity directors, Spanish Fork City Councilman Jerald Cole and Provo/Orem Chamber of Commerce President Steve Densley at the steps of Provo City Hall to accept the donation from Fred Meyer.

According to Chuck Peden, regional soft goods operations manager, Fred Meyer has a long tradition of helping the needy in communities where the chain is located. Deseret Village director Leroy Jensen said many people in great need will be provided for due to this donation.

BYU volunteers help build mountain trail

By THOMAS USERY
Universe Staff Writer

BYU students are doing volunteer work for the Forest Service to help build part of a wilderness trail that will extend from Canada to Mexico.

According to John Hendricks, a volunteer coordinator, the BYU students are helping to construct a lateral part of the Great Western Trail, a part being built from South Fork Canyon to Rock Canyon.

The BYU students worked at the start of the trail up South Fork Canyon just above Vivian Park, said Leroy Dennis, Parks and Recreation director for Provo. "There were about 40 students who worked on the trail. It was a fantastic effort; they had a great time and worked hard," he said.

"The lateral trail is now open. We're working on improvements over the next couple of weeks, until

the snow comes," said Stephen Winslow, a ranger for the Uinta National Forest Service. The trail is about eight miles long and is passable, but needs work, said Winslow.

About 80 percent of the trail will be built by volunteers, he said. "We have our own trail crew, and will receive a prison crew to help cut a part of the trail from South Fork Canyon to Windy Pass where it will tie into the Great Western Trail over on Strawberry Ridge," said Winslow.

The trail from South Fork to Windy Pass should be completed by Nov. 1, he said. So far there have been from 150 to 200 volunteers. Maintenance of the trail will be provided by volunteer groups, said Winslow. The supervision of the trail will mainly be by the volunteer group, although rangers will patrol it from time to time, he said.

The trail is very scenic with a lot of diversity, said

Winslow. From South Fork Canyon up to Big Springs, the trail will be an easy hike of about two miles. From Big Springs at about 6,000 feet the trail will climb up the Wasatch Mountains to about 9,000 feet then descend down Rock Canyon to end above the Prove Temple.

"The trail is very steep and rugged. In several places it cuts through loose rock slopes and takes the hiker above timber line on Cascade Mountain," said Winslow. Camping and hunting is allowed on the trail.

According to Winslow, the trail is designed for horseback riding, cycling and hiking. "We're unsure about motorcycle access over the trail. That would be the only type of motorized equipment allowed. Probably motorcycles will not be allowed, but we haven't made a final decision on it," said Winslow.

WELCOME TO THE SPIRIT OF THE Y

Redford speaks out on canyon highway

By PAT BIRKEDAH and
ELONA J. WOODWARD
Universe Staff Writers

Robert Redford was the featured speaker at the natural resource law forum, "The Provo Canyon Paradox," Friday afternoon at the J. Reuben Clark Law School.

Redford first became involved with the proposed road improvements in Provo Canyon in 1969. In the course of his involvement, Redford said he has been disillusioned by the lack of due process demonstrated by the Utah Department of Transportation regarding highway construction in Provo Canyon. Redford said, "I began to learn a lesson in semantics,

people saying one thing and doing another."

Redford's interest in the road construction is as a private citizen and as owner of Sundance Ski Resort.

"My living here is for a good reason. I've always had an incredible feeling that Provo Canyon is a great resource for this community," said Redford.

The history of the controversy between citizens and UDOT was outlined by David Magleby, a BYU political science professor and a member of "Citizens for a Safe Community."

In 1969, UDOT planned to build a four-lane expressway through Provo Canyon.

Substantial objections from citizen groups in 1971 put the project on hold

until a study could be completed, he said.

The study was conducted from 1971 to 1975 and recommended the construction of a two-lane road with occasional passing lanes. The plan was adopted in 1975 as a compromise between citizens and UDOT.

Although the highway plan was adopted in 1975, construction did not start until 1983 at which time UDOT proceeded with a four-lane road. UDOT claimed they were building a two-lane road with continuous passing lanes. A citizens' lawsuit halted construction, claiming that UDOT was building a four-lane road contrary to the previous agreement. The courts ruled in favor of the citizens.

UVCC social issues debate hosted by political groups

By DEE MOODY
Universe Staff Writer

Utah Democrats for Dukakis and Utah Republicans for Bush sponsored a debate to discuss social issues such as child care, the homeless, education and health care Monday afternoon at Utah Valley Community College.

Debating for the Democrats was Salt Lake City attorney Mary Ellen Sloan and for the Republicans Lisa Michele Church, also a Salt Lake City attorney.

Church began by saying, "There are three basic themes of the presidential race; freedom, jobs and family. Voters need to decide which can-

didates hold the beliefs and values that are the closest to their own."

"George Bush believes in more freedom, less government control programs to strengthen the family unit and excellence through education," Church said.

Sloan said America is ready for more leadership "because it's not right that some have opportunities while others don't. Dukakis will provide opportunities, health care and schooling for everyone."

Church said about the homeless America, "Dukakis wants to solve problems by going further into debt but Bush would like to see the problem solved at local levels."

Get Your Passport to the Homecoming Activities

Present your passport at each Homecoming Activity and get it stamped!

Stamped Passports = Points = Prizes!
The More You Have,
The More You Get!

5 Stamps = 2 BYUSA Campus Party Dance Tickets

10 Stamps = 2 BYU Department of Music Ensemble Tickets

15 Stamps = 2 Film Society Tickets
